DETAILED ACTION

Examiner's Comments

1. This action is in response to applicant's amendment and terminal disclaimer received 13 September 2004. Applicant has cancelled claims 3-22. The pending claims are now 1 and 2.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specifications, page 1, in the paragraph under "RELATED APPLICATIONS", --, now US Patent No. 6,629,403.-- was inserted immediately after "2000".

Reasons For Allowance

3. The following is an examiner's statement of reasons for allowance: The prior art of record fails to anticipate or show in combination a mandrel for use in an automatic packaging machine comprising at least two pairs of oppositely disposed fingers that move away from each other via a cam follower on two pairs of elongated tracks of a support plate, the mandrel also having resilient biasing means for pulling the at least two pairs of oppositely disposed fingers closer to each other on the tracks to grip an object between the fingers, whereby the resilient

biasing means tightens the grip, and movement of the cam follower along the contours of the track overcomes the resilient biasing means and loosens the grip.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
